1. Declaration

I, **Michael Wise**, trading as **WiseJNRS** (Brisbane, Queensland, Australia; Apple Developer Program team 2D2566E9-38F2-4574-B7ED-5AA0FC945378; contact mike@wisejnr.net), declare that:

1. I am the sole composer, performer, producer and copyright owner — in both the musical works (©) and the sound recordings (℗) — of **every** audio track that the WiseJNRS and WiseJNRS TV apps stream. No recording by any other artist, label or rights holder is included.
2. All audio files are hosted on **cdn.wisejnr.net**, a domain and content-delivery account that I own and operate. The apps do not fetch, stream, cache, extract or download audio or video from Apple Music, Spotify, SoundCloud, Bandcamp, YouTube or any other third-party service, and they contain no mechanism to do so.
3. The artwork, blog writing and merchandise designs shown in the apps are likewise my own original work.
4. I accept responsibility for any claim arising from the content, as required by App Store Review Guideline 5.2.3.

Signed: Michael Wise Michael Wise, WiseJNRS **Date:** 16 September 2026

2. How the apps touch third-party services

The reviewer's screenshot shows the Home screen playing *Adolescence v1* by Michael Wise from the WiseJNRS Radio shuffle. That track, like all others, is my own recording served from cdn.wisejnr.net. For completeness, the only points where third-party services appear are:

Feature	What it actually does
Listen elsewhere row (SoundCloud, Spotify, Apple Music, Bandcamp)	Outbound links to my own artist profiles on those services (URLs in §3). On Apple TV each is shown as a QR code to open on a phone; nothing from those services is loaded or played in the app.

Feature	What it actually does
Search (genres, tempo, keys, decades)	Searches the metadata of my own 376 recordings. No external catalogue or discovery service is queried.
Blog posts with embedded video	Standard YouTube embeds of public videos on iOS (YouTube's own player, per YouTube's terms); on Apple TV a poster image with a QR code to watch on a phone. Nothing is downloaded or re-hosted.
Shop	Links to my own Shopify store (physical merchandise), opened in Safari or via QR code. No in-app purchase.

3. Evidence

3.1 Apple's own catalogue

The same recordings are distributed to Apple Music under the artist **Michael Wise** (Apple Music artist ID 1611284748, <https://music.apple.com/us/artist/michael-wise/1611284748>). Apple's catalogue lists the © line for every release as WiseJNRS or Michael Wise — the developer of these apps. Retrieved from the iTunes Lookup API on 16 September 2026:

3.2 Distribution and matching artist pages

My releases are distributed to Apple Music, Spotify and the other stores through **Sound-Cloud for Artists distribution** from my SoundCloud account (https://soundcloud.com/michael_wise) which is also where the works are first published and attributed. The stores' artist pages therefore all resolve to the same person as the developer of these apps:

- Spotify: <https://open.spotify.com/artist/70Z8ACbP3X1b9wAmrqVBT9> (artist page “Michael Wise”, fed by the SoundCloud distribution above)
- SoundCloud: https://soundcloud.com/michael_wise (my artist and distribution account)
- Bandcamp: <https://mlwise.bandcamp.com/> (artist “Michael Wise”)
- Website and CDN: <https://www.wisejnrs.net/music> · <https://cdn.wisejnrs.net>

3.3 The app’s catalogue

The catalogue the apps read (<https://www.wisejnrs.net/api/data/music>) contains **376 recordings**. On every one of them the artist, album artist and composer fields are “Michael Wise”, and every audio URL is on cdn.wisejnrs.net. 25 are released tracks across four albums; the remaining 351 are my unreleased demos and works in progress, which exist nowhere else.

Album	Artist	Year	Tracks in app
#SAME	Michael Wise	2024	12
Contours	Michael Wise	2024	0
Florilegium	Michael Wise	2024	5
Disobedient	Michael Wise	2024	8

3.4 App Store metadata

Both App Store records name **Michael Wise** as the developer and carry the copyright line “© 2026 Michael Wise (WiseJNRS)”. The App Review contact is mike@wisejnrs.net, the same identity as the artist pages above.
